Professional Summary

Detail-oriented and passionate **Web Developer** with hands-on experience in front-end technologies including **HTML, CSS, Tailwind CSS, and JavaScript**. Proven ability to build responsive web pages and user-friendly interfaces. Strong foundation in version control, collaborative development workflows, and debugging using browser tools. Completed IBM's Web Development course and currently refining skills through real-world projects at MEST Africa. Eager to join dynamic development teams to contribute clean code, innovative ideas, and a commitment to continuous learning.

Technical Skills

Front-End Development

- HTML, CSS, Tailwind CSS, JavaScript
- Responsive Web Design (Flexbox, Grid, Media Queries)
- Web Accessibility & Cross-Browser Compatibility

Tools & Technologies

- Git & GitHub | Visual Studio Code | Browser DevTools
- Basic understanding of RESTful APIs
- Figma (basic UI/UX collaboration)

Additional Programming Experience

- Python (scripting, automation)
- MATLAB (analytical computation)

Soft Skills

- Problem Solving & Analytical Thinking
- Strong Communication & Collaboration
- Self-Learner & Tech Enthusiast
- Adaptable in Remote Work Environments

Professional Experience

Web Development Trainee
MEST Africa & Generation Ghana – Accra, Ghana | **May 2025 – Present**

- Designed and built responsive websites using HTML, CSS, and JavaScript
- Implemented modern layouts using Flexbox and media queries
- Utilized Git and GitHub for version control and collaborative development
- Completed capstone project: a personal portfolio website showcasing projects and skills

Web Development Learner
IBM SkillsBuild – Online | **Completed May 2025**

- Developed static web pages and practiced front-end fundamentals
- Applied responsive design principles
- Gained foundational knowledge in web accessibility and user-centered design

Software Tester
U-Test, Tester IO – Remote | **Feb 2025 – Present**

- Performed functionality and UI testing on websites and applications
- Reported bugs and usability issues, improving overall user experience
- Developed an eye for frontend consistency and design flaws

AI Data Annotator (Contractor)
LXT AI – Remote | **Jan 2025 – Mar 2025**

- Annotated large volumes of text data for AI model training
- Collaborated with remote teams and followed strict quality assurance protocols
- Developed strong attention to detail and familiarity with structured data formats

Electrical Engineer Associate
Illuminate Africa Consult – Accra, Ghana | **Jun 2024 – May 2025**

- Applied problem-solving and logical thinking to automation tasks
- Analyzed energy data, developing skills transferable to debugging and coding logic

---

Projects

Personal Portfolio Website

- Built a responsive, single-page portfolio using HTML, Tailwind CSS, and JavaScript
- Hosted on GitHub Pages with version tracking

Responsive Landing Page

- Designed and implemented a mobile-first marketing page
- Employed Tailwind CSS utilities for clean and scalable styling
- Integrated form validation using JavaScript

Education

BSc. Mechanical Engineering
University of Energy and Natural Resources – Sunyani, Ghana | **2018 – 2022**
Relevant Coursework: Computational Engineering (MATLAB), Mechatronics, Engineering Design

---

Certifications

- IBM SkillsBuild – Fundamentals of Web Development *(May 2025)*
- MasterCard Foundation – Soft Skills Training *(January 2024)*

Languages

English (Fluent) | French (Intermediate) | Hausa, Twi, Mossi
